ABSTRACT OF THE DISCLOSURE

A parking lot return system for shopping carts in a parking lot with a plurality of parking spaces. The parking lot return system for shopping carts has a plurality of central lanes with a front end, a back end, a left side and a right side with parking spaces provided on the left side and right side along the central lanes. There is also a plurality of shopping cart entrance lanes that feed into the central lanes from the left side and the right side of the central lanes as well as a plurality of curbing that forms the central lanes and separates the central lanes from the parking spaces and the parking lot.
